FILM SHEET

New advanced interior surface material with self-adhesive from **KOREA**

Linen **MG3060**

Vintage Oak **ZG5009**

2020 - 2021, new collection.

Interior Film Sheet

New advanced interior surface material with self-adhesive from

KOREA

RELIABLE QUALITY

- Very stable when exposed to temperature, humidity and temperature
- Good abrasion resistance and antibacterial.
- Luxurious colors and patterns

EASY TO USE

- Easy to apply on many surfaces thanks to the special structure and treatment method. No air bubbles appear during construction.

ENVIRONMENTALLY FRIENDLY

- Use 100% plastic material without Phthalate and heavy metals

What is interior film

It is a high quality interior finishing material developed for the creation of high quality space by reproducing the natural texture by embossing various colors and natural texture from wooden pattern expressing the feeling of natural texture to leather pattern of soft surface and smooth surface.

Compared to ordinary decor sheet, which has a lot of artificial feeling, it has various patterns of familiar feeling such as wood, metal, leather, stone, and primary color, and it is a product adhered to a soft sheet.

It has excellent durability and has earned the highest grade of environmental mark and eco-friendly building material.

Features and advantages of interior film

1. Maintenance and management is easy.
2. Various texture styles for all kind of applications: Wood, leather, fabric, solid, stone, etc.bric, solid, stone, etc.
3. Strong against scratches and impacts
4. Easy to clean even if polluted
5. Flame-proofing function and environment-friendly certification.
6. Narrow space that is difficult to solve by painting

Where to apply

- Furniture : Kitchen cabinet, wall, desk, table, bed frame
- Door and frame : Doors, windows, gates
- Decorative furniture : Family, office, school space ...
- Electronic machine : Refrigerator, washmachine,
- Commerce/shop : Shelves, counters, product displays,...

SOFT MATT

SOFT MATT is a surface special coating that allows smooth texture and luxurious matte finish. It is a premium product that minimizes scratches and maximizes the comfort of a single color through painting techniques.

ECO-FRIENDLY SOIF

SOIF interior film is an environment-friendly surface finish that has passed various tests. We are always doing our best for the health and safety of our customers as well as expressing natural and diverse designs.

Eco-friendly material certification

- Heavy metals (lead, cadmium, mercury) and formaldehyde (HCHO) emissions, which are harmful to the human body and known to be the major cause of sick house syndrome, meet the criteria of official agency.
- Minimizes the emission of total volatile organic compounds (TVOC, toluene) that are harmful to the environment.

Use environmentally friendly plasticizer

- It is safe to use environment-friendly plasticizer without using harmful phthalate raw materials.

NON Phthalate

- DEHP > 0.1 % Below Not detected
- DBP > 0.1 % Below Not detected
- BBP > 0.1 % Below Not detected

Excellent flame retardancy & Safety

- It is a product that passed strict fire-prevention inspection of the KOREA FIRE INSTITUTE. It protects the life and property of customers with excellent flame retardant performance and safety.

Flame retardant certification

- Carbonization length > 20cm Below TEST passed
- Carbonization area > 30 cm² Below TEST passed
- Residual fire > 3 second Below TEST passed
- Residual flame > 5 second Below TEST passed
- Smoke density > Max Ds=200 Below TEST passed
